### HSA/HDHP Limits Will Increase for 2025

On May 9, 2024, the IRS released <u>Revenue Procedure 2024-25</u> to provide the inflation-adjusted limits for health savings accounts (HSAs) and high deductible health plans (HDHPs) for 2025. The IRS is required to publish these limits by June 1 of each year.

These limits include the following:

- The maximum HSA contribution limit;
- The minimum deductible amount for HDHPs; and
- The maximum out-of-pocket expense limit for HDHPs.

These limits vary based on whether an individual has self-only or family coverage under an HDHP. Eligible individuals with self-only HDHP coverage will be able to contribute **\$4,300** to their HSAs for 2025, up from \$4,150 for 2024. Eligible individuals with family HDHP coverage will be able to contribute **\$8,550** to their HSAs for 2025, up from \$8,300 for 2024. Individuals age 55 and older may make an additional \$1,000 "catch-up" contribution to their HSAs.

The minimum deductible amount for HDHPs increases to **\$1,650** for selfonly coverage and **\$3,300** for family coverage for 2025 (up from \$1,600 for self-only coverage and \$3,200 for family coverage for 2024). The HDHP maximum out-of-pocket expense limit increases to **\$8,300** for self-only coverage and **\$16,600** for family coverage for 2025 (up from \$8,050 for self-only coverage and \$16,100 for family coverage for 2024).

#### **Action Steps**

Employers sponsoring HDHPs should review their plan's cost-sharing limits (i.e., the minimum deductible amount and maximum out-of-pocket expense limit) when preparing for the plan year beginning in 2025. Also, employers allowing employees to make pre-tax HSA contributions should update their plan communications with the increased contribution limits.
