## HSA/HDHP Limits Will Increase for 2026

On May 1, 2025, the IRS released [Revenue Procedure 2025-19](#) to provide the inflation-adjusted limits for health savings accounts (HSAs) and high deductible health plans (HDHPs) for 2026. The IRS is required to publish these limits by June 1 of each year.

These limits include the following:

- The maximum HSA contribution limit;
- The minimum deductible amount for HDHPs; and
- The maximum out-of-pocket expense limit for HDHPs.

These limits vary based on whether an individual has self-only or family coverage under an HDHP. Eligible individuals with self-only HDHP coverage will be able to contribute **\$4,400** to their HSAs for 2026, up from \$4,300 for 2025. Eligible individuals with family HDHP coverage will be able to contribute **\$8,750** to their HSAs for 2026, up from \$8,550 for 2025. Individuals age 55 and older may make an additional \$1,000 “catch-up” contribution to their HSAs.

The minimum deductible amount for HDHPs increases to **\$1,700** for self-only coverage and **\$3,400** for family coverage for 2026 (up from \$1,650 for self-only coverage and \$3,300 for family coverage for 2025). The HDHP maximum out-of-pocket expense limit increases to **\$8,500** for self-only coverage and **\$17,000** for family coverage for 2026 (up from \$8,300 for self-only coverage and \$16,600 for family coverage for 2025).

### Action Steps

Employers sponsoring HDHPs should review their plans’ cost-sharing limits (i.e., the minimum deductible amount and maximum out-of-pocket expense limit) when preparing for the plan year beginning in 2026. Also, employers allowing employees to make pre-tax HSA contributions should update their plan communications with the increased contribution limits.
