Access to Your Insurance Coverage Information is Right at Your Fingertips at NISClients.com

Access to Your Insurance Coverage Information is Right at Your Fingertips at NISClients.com

National Insurance Services' (NIS) online features make it easy to manage your Group Term Life, Group Long Term Disability and Group Short Term Disability Insurance coverage with our partner carriers. Check out our time saving online features below.

Online Forms and Certificates

At NISClients.com, you will have secured access to items including:

- Administrative Insurance Forms
- Insurance Certificates
- Frequently Asked Questions

Online Administration*

We make it easy for you to:

- View and modify employee information (name change, salary change, etc.)
- Enroll a new employee or notify us of a termination
- Enroll rehired/reinstated employees
- Calculate premium for voluntary or supplemental coverage
- Generate and print your bills

*If your group is large and you need to make lots of changes each month, or prefer not to use online administration, there is another option available to you: simply provide us with an electronic census file and we'll do the rest. Contact your representative to discuss the right choice for you.

Online Reporting

You have the ability to:

- Print a census
- Look up current Evidence of Insurability status
- See future premium/volume changes due to age
- View/print prior bills

Note: As a specialist in public sector benefits since 1969, NIS is proud of the fact that we can offer each client the tailored products and services they need while other companies struggle with this customization. While most groups can be accommodated with our online administration application, not all clients will be able to take advantage of this particular service due to certain policy features. However, there are always options that can make your work with us simplified and stress-free, because we are dedicated to personalize your service. Call us today and we will evaluate your situation to determine which service will work best for your needs.
