NIS Enroll: Building Blocks

Building Blocks Benefit Administration/Electronic Enrollment System Includes:

A Better Benefits Solution

NIS Enroll – Building Blocks is our Benefit Administration/Electronic Enrollment System offered through our partner Building Blocks for Business. NIS Enroll – Building Blocks can help you improve the effectiveness of your benefits programs, simplify your administrative burdens, and enhance your employee experience throughout the entire year. NIS Enroll – Building Blocks is offered to you at no cost.

Benefit Administration

- Streamlines the benefit administration/enrollment process
- Manages data as a system of record
- Creates one central repository for employee benefit enrollment information and data

Electronic Employee Enrollment

- One-on-one telephonic employee enrollment meetings for all your benefits
- No more paper applications or manual enrollment processes
- Dedicated Client Service Team for enrollment support, employee education, and answering questions

Employee/Employer Benefits Communication

- Year-round access and communication for your employees

- Personalized enrollment experience
- Provides efficient, high-touch enrollment
- Reduces the administrative burden on your Human Resources/Benefits Department

NIS Enroll Will Offer Your Employees the Following Voluntary Coverages in Addition to Taking Them Through and Enrolling Them in All Their Benefits

- Individual Life Insurance that includes Long Term Care (LTC)
- Critical Illness coverage
- Hospital Indemnity coverage
- Accident coverage
