

## Join Together: Strength in Numbers

### The National Insurance Services Trust

The National Insurance Services (NIS) Trust was created specifically for small and medium-sized governmental employers in order to increase their purchasing power. NIS recognized that due to their size, these groups were unable to get the price breaks and plan options often available to their larger counterparts. By pooling together, these employers are able to receive more competitive rates and achieve long-term rate stability on their life and disability insurance.

#### Trust Members Include:

- School Districts
- Cities
- Counties
- Community Mental Health
- Public Libraries
- Public Hospitals
- Public Utilities
- And more
